Washington 25, D. C.

25 March 1949

STAT

I wish to express my personal appreciation, and that of the FBIS staff in Washington and Cyprus, for the contribution you have made to the establishment of the FBIS station in Cyprus, which will begin full-scale operations on 15 April.

In making initial contacts in Cyprus, conducting negotiations for the acquisition and lease of property for construction and antenna rights, completing arrangements with the District Engineer for construction of the station, and remaining on the job in Cyprus as Agency representative during the major portion of the construction phase, you rendered an invaluable service to this organization.

The administrative procedures and local procurement arrangements you initiated are of great value to the FBIS staff in Cyprus and are contributing materially to the smooth running of the organization there.

Sincerely,

L. K. White
